

LASER HAIR REMOVAL

Will laser hair removal work for me?

LHR is safe for every skin color, but only effective on darker hair colors. LHR is not right for you if the hair you'd like removed is blonde or gray.

How many treatments come in a package?

Each package includes 6 treatments per area scheduled 4-6 weeks apart.

Will all of my hair be gone for good?

After 6 treatments, treated hair is permanently reduced by 80%. Note: Hormones, pregnancy and medications can affect your results.

How do I prepare for my treatment?

**If you are unable to follow the guidelines below, we will have to reschedule your appointment.*

- Be sure to shave the area within 24 hrs of laser hair removal treatment.
- If using any anti-aging on the hair treatment area, STOP these products 3-5 days before & after treatment.

DO NOT TAN. This includes tanning lotions, tanning wipes, spray tans, etc. Being tan at the time of your laser treatment can result in discoloration of the treated area. Your skin must be it's natural color to be treated. You may resume self tanner after treatment.

What should I expect after my treatment?

The treated area may be red or swollen afterwards. Small bumps may appear at the site of the hair follicles (can look similar to hives). This is normal & will fade in 3-5 days (sometimes less).

Do not apply any type of glycolic acid, exfoliation products, retinoids or other acne treatments to the treated area as this can irritate the skin.

What does the treatment feel like?

It feels like a hot rubber band pop. Discomfort is temporary, and worth it!

How long does the treatment last?

Appointment length varies based on the area being treated. It ranges from 20 minutes to 120 minutes. See next page for details.

LASER HAIR REMOVAL
