

# PATIENT PORTAL

## What about my pathology or lab results?

**IMPORTANT!**

**Our team will call you to go over results that need further treatment or discussion. You may call us at the phone numbers below for more information about any type of result.**

\* For BIOPSY/PATHOLOGY RESULTS call 205.981.6475

\* For BLOOD WORK/LAB RESULTS call 205.980.6205

### **If your results are considered benign, you will not receive a call from us.**

With the automatic release of test results to your electronic medical record, it is possible that you will see results in your record before your physician, physician assistant, or nurse practitioner. Your treating clinician's team is trained to interpret your results based on your specific medical history and condition, and to reach a proper diagnosis and develop a proper treatment plan. To avoid unnecessary concern, we encourage you to speak directly with our office about any new results that appear in your medical record. Please note that seeking advice regarding your condition from someone other than our office may lead to potential misinformation and unnecessary concern.

## When will I get access to my portal?

After your visit today you will get an email with a link to set up your patient portal.

HURRY! The activation link expires after 72 hours. If you miss the window, enter your username and click "Forgot My Password" to get a new link.

If you need help activating, call us at 205.995.5575.

## What will the activation email look like?

From: Patient Portal  
<welcome@modernizingmedicine.com>

Date: Day of Week, Month DD, YYYY

Subject: Welcome to Your Forefront Dermatology Patient Portal

To: YOUR NAME <youremail@gmail.com>

## Where do I access my portal?

## What is my username?
